SOCI 3290    Gender and Work
SOCI 3860    Soc. of Alcohol and Drug Use
SOCI 4280    Global Perspectives on Gender

If you would like to use a research, independent study, or internship course from within a public health department in the College of Public Health, please contact your advisor for pre-approval.

Entrance requirements for the major may be found at https://publichealth.uga.edu/degree/b-s-in-health-promotion/. This major is a high demand major and applications are accepted each fall and spring semester. Applications are to be completed and emailed to the college office (105 Rhodes Hall, Health Science Campus) by a firm deadline. Additional information and requirements for the BSHP degree may be found under the health promotion major at http://bulletin.uga.edu

Please note that pre-requisites apply for many courses, including major required and major elective courses. Several required courses have pre-requisites and must be taken in sequence. Many major electives also have pre-requisites. Please see your advisor for proper course sequencing.

Study abroad courses may work as major electives. Talk to your advisor.

First Aid and CPR certification is required prior to registration for HPRB 5560S.

The proposal for HPRB 5560S must be completed by mid-point of the semester preceding the field experience. Field experience proposal materials will be made available after advisement for the internship.

HPRB students are required to compile and maintain an E-portfolio documenting and exhibiting work or experiences gained throughout the undergraduate program.

Effective Fall 2019
