David Hayes Undergraduate Award

Purpose:

This award fund provides undergraduate Health Promotion and Behavior students with opportunities to develop their teaching, research and general professional skills and to enhance their undergraduate experience by supporting conference attendance, professional education classes and training, and classroom instruction support.

The award fund honors the career of David M. Hayes, Ph.D. Throughout his career, Dr. Hayes was committed to student instruction and served as faculty in the Department of Health Promotion and Behavior at the University of Georgia for over 20 years.

Eligibility:

This fund supports HPB undergraduate instructional experience, particularly projects or experiences that students may undertake that is over and above the classroom requirements.

Only undergraduate students are eligible to apply for direct support. Departmental faculty or teaching assistants can apply for support directly related to teaching the undergraduate classes.

Types of expenses that will be funded include: travel expenses related to attendance at professional conferences, meetings, or lectures; professional education such as workshops, classes, or trainings; expenses related to research while at the University of Georgia; student initiated programs or activities designed to improve the health of Georgians; and classroom materials intended to enhance an undergraduate student's classroom experience such as, but not limited to, journal subscriptions, videos, and books.

Expenses that would not be eligible for funding include: equipment for research projects, classroom equipment (white boards, tables, etc.), or memberships to professional organizations. A maximum of \$200 may be given per project or initiative,

not necessarily per student. Under special circumstances and on a case by case basis, higher sums may be provided.

Application Process:

Please contact the Department of Health Promotion and Behavior for application information.
