

Traffic Safety Research and Evaluation Group (TSREG)

TSREG's mission is to provide comprehensive research and analysis on the effectiveness of traffic safety programs at the federal, state, and local levels to reduce death and injury caused by roadway traffic crashes.

What we do:

- Provide program evaluation services to federal, state, and local agencies;
- Educate people on traffic safety laws and practices;
- Fulfill data inquiry requests by traffic safety stakeholders;
- Conduct research on interventions designed to reduce morbidity and mortality attributable to traffic crashes;
- Disseminate best practices to stakeholders in traffic safety and public health domains.
