FORMAL RESEARCH & PHYSICIAN SHADOWING EXPERIENCE

Selectee, Foothills Area Health Education Center Pathway to Med School Program, May 2024-June 2024

One of eight students out of a number of pre-medical student applicants selected to participate in a residential summer program consisting of 80 clinical shadowing hours, 60+ hours of community-based research, and 40 hours of instructional sessions all focusing on primary care medicine.

Research Intern, Northeast Georgia Medical Center, July 2023-August 2023

Full-time paid summer research and physician shadowing experience with the Office of Graduate Medical Education of a 613-bed teaching hospital. Shadowed roughly 80 hours with clinicians across internal medicine, family medicine, and general surgery specialties. Conducted a three-year retrospective chart analysis of over 2,200 patient encounters; found that patient limited English proficiency is associated with increased length of hospital stays following laparoscopic appendectomy. (Submitted for publication.)

TEACHING EXPERIENCE

Graduate Teaching Assistant, University of Georgia, Fall 2024. Assisting Dr. Marcus Dumas with HPRB 1710: Health and Wellness, a required course for most undergraduate programs within the College of Public Health with ~50 undergraduates.

Undergraduate Teaching Assistant, Georgia Institute of Technology, Fall 2023. Assisted Dr. Adam Decker with BIOS 3753: Human Anatomy, a major elective with ~200 undergraduates.

PUBLICATIONS

Wilson-Patino, C., Singh, H., & Jones, L. (2024). Patient limited English proficiency and increased length of postoperative hospital stay: Evidence of correlation. *Journal of the Georgia Public Health Association* (under review).
